

Specialist Components – Technical Information

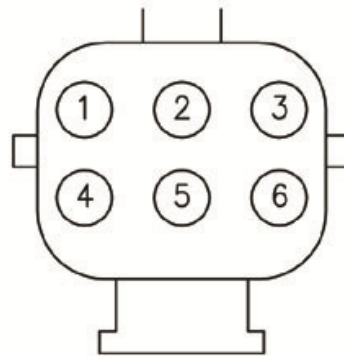

SC D400/Typhoon2 Engine Management System

Mini Wiring Harness General Information

Power Connections

- Red wire: Permanent +12V supply
- White wire: +12V supply switched with ignition
- Black ground loop: to engine block

6 Way 'Econoseal' Auxiliary Connector

(MALE 170 ECONOSEAL)
CABLE ENTRY

Pin Number	Wire Colour	Name
1	Black/Purple	Cooling Fan Relay Output (switches ground side)
2	White	+12V Ignition Feed to Lambda Sensor
3	White/Black	Tacho Output (may need 1K pull-up resistor)
4	Black/Orange	Fuel Pump Relay Output (switches ground side)
5	Black	Ground for Lambda Sensor
6	Slate	Lambda Sensor Signal Input
